## HOW DOES KINETICO COMPARE?

**OPERABLE WITH MANY SYSTEMS**
- AMAZON ALEXA
- GOOGLE ASSISTANT
- GOOGLE NEST
- SAMSUNG ST.
- CONTROL4

**PRESSURE SENSING DEVICES**
- FLO & PHYN

**MODULAR EQUIPMENT**
- WATER COP
- SAMSUNG

**SENSORS ONLY**
- FIBARO & HONEYWELL
HOW DOES KINETICO’S LEAK DETECTION SYSTEM WORK?

**HUB**
- Long Range: components communicate with each other throughout your home
- Power Back Up: Batteries ensure operation even during power outages
- Alerts: Notifications are sent to the App and your devices as texts or emails

**SENSORS**
- Long Battery Life: No outlet needed
- Multiple Detection: Monitors moisture and ambient temperature
- Fast Response: Sends alert within five seconds of detection
- Multi-sensorial Alerts: Flashes, beeps and sends alerts

**VALVE**
- Connects To Main Water Supply: Shuts off water to home
- Fast Response: Turns off water within seconds
- Power Back Up: Batteries ensure operation even during power outages

**APP**
- Constant Protection: Alerts sent any time, day or night
- Broad Communication: Multiple contacts can receive alerts
- Interoperable: Pairs with multiple home monitoring devices

**TOTAL SYSTEM**
- Scalable: One hub can pair with 31 sensors across 6,000 sq. ft.
- Increased Range: Range extender can increase the detection area
- Flexible: Capable of indoor or outdoor installation

**WHAT’S INCLUDED:**
1 Smart Hub
1 Power Cord and needed Batteries
1 Water Shut-off Valve
4 Leak Sensors
Installation and Operation Guides

Install water shut-off valve. Set for automatic or manual shut-off

Place leak sensors in leak-prone areas around your home — such as near water-using appliances, toilets, and sinks

Connect the hub to Wi-Fi, and pair it to each sensor and your devices.

If water is detected or temperature changes, an alert is sent to you via the App

Manually shut off water if system is not set to shut off automatically
